

Large double table, tan (A694)

Built-in ledge puts a play surface right at the children's finger tips.

The bridge between pans offers even more play surface.

To move table, simply lift one end and roll. It's immediately stationary when set down.

The large drain allows almost any material through. It's easy to clean, and the tethered plug won't get lost!

This mobile Storage shelf connects to Roomscapes and provides organised storage. There are compartments for sorting and a slot for pan lids.

Large tables provide space for collaborative play. Watch those young scientists investigate as they mix, count and measure.

Large tables for sand & water play

ECERS 2: 7.2, 23:7.1, 5.1
ITERS 21: 7.2, 7.1, 5.3

Sand and water play is wet or dry, always messy and most importantly, fun! Use the Large double table to separate materials and encourage schematic play. The Large single table is perfect for larger volumes of water or other materials.

Use the purpose-built Storage shelf for wet or sandy accessories and loose parts. Water drains through the grates and onto the plastic tray below. Just pull it out for a quick clean.

All items come fully assembled.
For ages 15 months–6 years.

Large double table, clear A696
Height adjusts to 46, 54 or 61 cm

Large double table, tan A694
Height adjusts to 46, 54 or 61 cm

Large single table A697
Height adjusts to 46, 54 or 61 cm

Float, sink or build – at the Large single table, there's plenty of room to experiment!

Sand and water storage shelf A698

Change table height quickly with intuitive leg adjustment.

Low: 46 cm, 15–24 months

Medium: 54 cm, 2–3 years

High: 61 cm, 3–6 years

Storage shelf (A698)
Small table, tan (A692)

Water drains off toys through grates, and collects on removable plastic drip tray.

The large drain allows almost any material through. It's easy to clean, and the tethered plug won't get lost!

Change height of table quickly with intuitive leg adjustment.

Built-in ledge puts a play surface right at children's finger tips.

To organise smaller toys or loose parts, place a Deep tote (p. 66) in Storage shelf compartment.

Small tables for sand & water play

ECERS 2: 7.2, 23.7, 5.1
 ITERS 21: 7.2, 7.1, 5.3

This Small table is the compact, space-efficient option to bring sand and water play into your setting when floor space is limited. It's easy to move, drain and clean. Watch children completely immersed in sensory play with a variety of materials.

Sand and water tables adjust to three heights: low for 15–24 months, medium for 2–3 years, and high for 3–6 years.

The Storage shelf's angled, child-height compartments invite children to sort and select toys; even babies can help themselves. The designated slot at the back holds two Sand and water table lids.

All items come fully assembled.
 For ages 15 months–6 years.

 Height adjusts to 46, 54 or 61 cm

As children dig, pour, sift and scoop, imaginations expand and discovery begins.

Sand and water storage shelf
A698

Drip tray catches water or mess draining through grates, and removes for cleaning.

Lids slot neatly into designated space, upright and safely out of the way.

Mobile: Flip up the hidden wheels, roll...

...and flip down for a perfectly stationary unit.

Low sensory table (A691)

The Low sensory table comes with a lid.

10 cm deep pan holds anything from balls to natural materials.

Sturdy build lets babies pull up safely on the smooth rim.

Bring it down to baby level. The Low sensory table lets them discover new textures and explore sensory materials.

Sort, post and transport – toddlers can access the angled compartments on the storage shelf, and even little crawlers can rummage through the bottom bins.

Low sensory table

ITERS 15: 7.2, 7.1, 5.1

Here's a place for the smallest ones to explore – just the right height for your little crawlers. This Low sensory table encourages communication and curiosity as well as both fine and gross motor skills. Lift pan out easily for emptying and cleaning.

Stow accessories and loose parts in the child-accessible Storage shelf, where even babies can reach them.

All items come fully assembled.
For ages 9–15 months.

Low sensory table A691

For ages 9–15 mo. Legs do not adjust.

Sand and water storage shelf A698

The stable wooden frame invites babies to explore, and little feet fit under the pan!
