

Outlast

The great outdoors is the ultimate playground for learning and growth. Extending your curriculum outside connects children with the natural environment on a daily basis. Outlast products are weatherproof, extremely durable, and aesthetically pleasing. They will transform your outdoor space, adding new possibilities and dimensions to your curriculum.

Weatherproof

Is it possible? Yes! Outlast products are made of acetylated wood, which has been proven to last for several decades in direct contact with the ground. Outlast will not warp, shrink, twist, or rot and does not need covered storage, whatever the weather.

Non-toxic

Acetylation is a treatment process that modifies wood at the molecular level, rendering it rot resistant without using any toxic substances. It's child-safe and environmentally friendly. "Safe enough to eat" is no exaggeration.

Durable

To complement the weatherproof wood, Outlast products are fastened with stainless steel hardware and UV-resistant rubber. Outlast is backed by our standard 15-year warranty.

Supporting Sustainable Forestry

Outlast is made with wood from well-managed, FSC® certified forests and other controlled sources.

Ultimate Play Value

Loose parts empower creativity and offer unlimited opportunities for problem solving and cooperative play, rain or shine.

Easy Care

Mud scrubs off with water and any mild detergent. Don't worry if your products eventually weather to a silvery grey – this is a natural process for acetylated wood.
