Community Playthings

Who we are

Because we design and create furniture with our own children in mind, quality and beauty come naturally. Our products are crafted by men and women who belong to a Christian community and believe children deserve the best.

The exceptional work you do alongside our high-quality equipment creates an environment where childhood comes alive.

Quality craftsmanship & design

Children need play equipment that is safe, simple, natural and beautiful. Our furniture is modular and adaptable, enabling your environment to be changed and developed.

All products are made in our workshops in East Sussex and Kent; their solid wood construction and robust joinery make for furniture and play equipment that lasts decades.

Input from educators and leaders like you has guided our product design for over 70 years. You'll find our products give staff an environment that is an extremely effective "third teacher."

Customer service

From product support to ordering and delivery, you have a UK-based account manager ready to answer any question you may have. Be sure to ask about our complimentary room layout service.

We provide free 2-week delivery to mainland Britain and Northern Ireland, and all products come with a 15-year warranty. Our products come fully assembled and ready to use.

Safety & sustainability

We believe equipment for children should be durable and made in a way that preserves the world they will inherit. Our long-standing commitment to creating environmentally responsible products has been recognised with the King's Award for Enterprise in Sustainable Development. Crafted with children's health and safety as a top priority, our products are free of any elements that are harmful for children or the environment. The wood we use is chain-of-custody certified and sustainably grown.

Outlast

The great outdoors is the ultimate playground for learning and growth. Extending your curriculum outside connects children with the natural environment on a daily basis. Outlast products are weatherproof, extremely durable, and aesthetically pleasing. They will transform your outdoor space, adding new possibilities and dimensions to your curriculum.

Weatherproof

Is it possible? Yes! Outlast products are made of acetylated wood, which has been proven to last for several decades in direct contact with the ground. Outlast will not warp, shrink, twist, or rot and does not need covered storage, whatever the weather.

Non-toxic

Acetylation is a treatment process that modifies wood at the molecular level, rendering it rot resistant without using any toxic substances. It's child-safe and environmentally friendly. "Safe enough to eat" is no exaggeration.

Durable

To complement the weatherproof wood, Outlast products are fastened with stainless steel hardware and UV-resistant rubber. Outlast is backed by our standard 15-year warranty.

The mark of
responsible forestry
FSC® C006924

Supporting Sustainable Forestry

Outlast is made with wood from well-managed, FSC® certified forests and other controlled sources.

Ultimate Play Value

Loose parts empower creativity and offer unlimited opportunities for problem solving and cooperative play, rain or shine.

Easy Care

Mud scrubs off with water and any mild detergent. Don't worry if your products eventually weather to a silvery grey – this is a natural process for acetylated wood.

Outlast Art Storage Unit
(W505)

Doors latch securely and can be locked with a long padlock.

A weatherproof roof and solid doors keep supplies safe, though it's still wise to store your paper roll indoors.

Handy catch holds the doors open.

Sturdy Art Trays clip securely onto rails.

Outlast Art Trolley
(W504)

No need to run back and forth for more supplies! Everything you need for teaching and learning is where you want it.

Large puncture-proof wheels make it easy to transport supplies wherever you need them.

Art Trays conveniently clip to both the Art Trolley and the Storage Unit rails.

Interchangeable small, medium, and large Art Trays are designed to fit across all items, making it easy to adapt, organise, and transport materials.

Found the right parking spot? The foot brake securely locks the trolley in place.

Outlast Art Storage Unit & Art Trolley

ECERS 17:7.2
ITERS 15:7.1

Bringing art outdoors opens up new possibilities for your projects, and eases cleanup. The weatherproof Art Storage Unit is a smart solution for storing art supplies outside, with sloped, easy-access trays that support self-selection and promote autonomy. These same trays fit seamlessly into the Outlast Art Trolley, which can be wheeled to wherever the activity is happening to keep creativity flowing. No more trips back indoors – the Art Trolley ensures everything you need for your activity stays organised and is always within reach!

Outlast Art Storage Unit
W505

Includes Paper Roll Holder, 3 Shallow Crates, 3 Large Art Trays, 12 Medium Art Trays, and 8 Small Art Trays.

Outlast Art Trolley
W504

Includes Shallow Crate, Large Art Tray, 2 Medium Art Trays, and 3 Small Art Trays

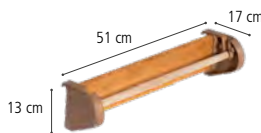

Weatherproof wood? See p. 7 to find out more.

The Art Trays allow teachers to regulate choice and select which items to make available. The angled openings offer easy access, ideal for boutique and loose parts play.

Accessories

Paper Roll Holder **W511**
Fits a roll 46 cm long, with a core of 2 cm or larger.

Load it up and go. Taking the curriculum outdoors opens up new possibilities, allowing for a broader range of materials to support and embed STEM and literacy skills.

You've got your art supplies; now you need your **Art Table!** See page 13.

Outlast Easel Island
(W503)

Outlast Easel Island

ECERS 18:7.1, 33:7.3
ITERS 16:5.1

The outdoors provides a rich foundation for inspiring creativity and artistic expression. With its generous vertical surfaces, the Outlast Easel Island encourages the large arm movements essential for early mark making, while the freedom to explore, rinse off, and try again builds confidence and school readiness. Designed for flexibility, the easel features an adjustable horizontal bar with three height settings, and sturdy clips that accommodate large paper sizes. Translucent panels allow for projects involving light and shadow.

Taking art outdoors doesn't just benefit children, it supports educators too. The easy setup and cleanup reduces stress, while children take an active role in the process as part of their learning journey.

For ages 2-11

Outlast Easel Island
W503
Includes 4 Supply Trays

Weatherproof wood? See p. 7 to find out more.

Emphasising process over product, the Outlast Easel Island encourages art and messy play, in line with learning goals for creative development. Rich, hands-on experiences belong outdoors just as much as they do indoors.

Use the Easel Island with the Art Storage Unit and Art Tables for a complete garden studio. Your paper roll and Art Trays can be mounted to the exterior of the Storage Unit doors for easy access.

Both horizontal and vertical surfaces allow for different learning styles to flourish, promoting inclusion.

The multiple large surfaces inspire group creativity, fostering collaboration and strengthening social skills.

Go ahead, turn on the water! Durable, easy-to-clean surfaces require minimal resources, and the easel's design encourages children to take part in the cleanup process.

Outlast Rectangular Art Table (W502)

The smooth acrylic tabletop provides the perfect surface for artwork – and makes cleanup quick and easy!

Keep art materials in reach. Supply Trays easily clip to the rails at each end of the table.

Child-sized

Choose the appropriate table and bench height for ergonomic, comfortable seating.

Outlast Art Tables

ECERS 7:7.3, 22:7.1

Outdoor learning thrives in an environment designed to enable exploration. Outlast Art Tables feature durable acrylic surfaces that support messy, process-based learning. Use the translucent tops to explore light, colour and texture, or to bring STEM and literacy activities outdoors. When the mood or weather shifts, simply move the tables around your outdoor space to experience new perspectives. Built from weatherproof wood, these tables are made to stay outside and inspire learning year-round.

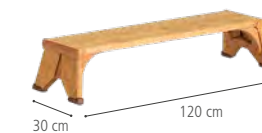

Rectangular Art Table W502

Includes 2 Supply Trays. Specify 40, 46, 50, or 56 cm table height.

Square Art Table W501

Weatherproof wood? See p. 7 to find out more.

The Outlast Art Tables allow children to extend their creativity and explore science, literacy and maths in a natural environment.

Adding the Art Trolley allows children to follow their enquiries and build agency. See page 9.

A complete Outlast Art Studio facilitates a broad range of creative opportunities, with multiple options for artistic expression. See Art Storage Unit and Easel Island on pages 9–11.

Outdoor cleanup is quick and easy! With less time spent tidying, there's more time for learning, creating and play.

See p. 31–33

Solid wood outdoor tables

Child-friendly blocks are rugged, with no sharp edges or toxins. The child-sized handholds make carrying easy.

Blocks and ramps are compatible. Their innovative interlocking feature facilitates the creation of sturdy structures on uneven ground.

Outlast Blocks are robust and develop gross motor skills.

Excellent play value. There's nothing like loose parts to encourage constructive play.

Interlocking blocks and planks make it possible to build and play on uneven ground.

Outlast Block Sets

ECERS 8: 7.2, 7.1, 5.2, 5.1

Outlast encourages imaginative play, child-directed discovery and learning in the great outdoors. Interlocking blocks and planks form the basis of this innovative constructive play system.

Reinforced with UV-resistant rubber corners and stainless steel hardware, Outlast Blocks earn their 15-year warranty.

Outlast Ramps allow children to explore the basic principles of physics the best way – through play!

UV-resistant bumpers reduce impact when blocks are dropped. Stainless steel hardware throughout.

Wide wheel base and 28 cm all-terrain wheels make this the sturdiest wheelbarrow around.

Perfect proportions:
The Wheelbarrow bed is designed to hold an Outlast Crate.

Enhance outdoor constructive play by integrating a Flow Pan, seamlessly combining block and water activities.

Build a mud kitchen with the modular Outlast Crates, Blocks and Planks. See page 19 for Crates.

Outlast Blocks & Wheelbarrow

ECERS 8: 7.2, 7.1, 5.2, 5.1

Crafted from acetylated wood, Outlast items are exceptionally rugged and built to last. The whole system is modular—crates share the same external dimensions as the blocks, allowing them to integrate seamlessly into block structures.

Outlast Toddler Platform 20 cm (W472)

Create age-appropriate climbing structures for your youngest explorers.

Toddlers also need a retreat from constant activity. Turn a Platform over to create a bin for loose parts play or a cosy nest for sitting in.

Toddler Platforms

ITERS 16: 7.3

The innovative Toddler Platforms are versatile and modular so teachers can create structures that invite exploration and active play. Platforms reconfigure easily to meet children's constantly expanding capabilities.

Durably constructed with weatherproof wood, these Platforms will never rot.

Weatherproof wood? See p. 7 to find out more.

The unique hexagon shape allows you to create circular, multi-level pathways.

Hollow Nook (M800)

Carpeted top with textured trim offers additional sensory stimuli.

Handholds become peepholes, allowing the child to observe the room from a secure place.

Each Nook comes with a removable curtain that attaches with Velcro.

Teachers can easily add or remove the Nest Nook accessory boards.

Nest Nook (M801) with Mirror Board (M813)

The floor of the Nest Nook is gently contoured to promote proprioceptive awareness.

Nooks

ECERS 3: 5.4, 5.2; 4:5.1 ITERS 3: 7.4

Every child needs a space for retreat at times. The Hollow Nook and Nest Nook provide a positive sanctuary where children can calm down, collect their thoughts, and self-regulate when they feel overwhelmed.

Made of solid beech, the Nook offers a sturdy structure, allowing children to brace against the sides. With rounded, smooth edges and no loose parts, it is designed for safety and longevity. The enclosure reduces light, sound and distractions, and the elevated floor accentuates the perception of retreat.

Nooks are convenient for teachers too! The mesh curtain allows for easy supervision, and rounded handholds make it simple to relocate the Nook within the room. Carpet can be replaced if necessary.

For ages 2–6

Add a felt or mirror accessory board to your Nest Nook; it slots in seamlessly on either side.

Place your Nook in a low-traffic area for a quiet retreat, or incorporate it into the story circle to include everyone. It's small and moveable, allowing you to explore different arrangements.

Nooks create an inclusive and supportive space within your room, enabling children to self-regulate while fostering connection and a sense of belonging.

A removable mesh curtain filters light and visual stimulus.

Cloakroom Furniture

Our space-saving cubbies will transform your entry into a welcoming, clutter-free zone. A well-designed cloakroom creates a tidy, inviting area that gives children a sense of ownership.

Ring us at +44 1580 883310 for tips on how to get started

Wall-mounted Coat Storage

Wall-mounted storage is the most compact cloakroom solution, and ideal for children of all ages. Find the right combination of shelves, cubbies and benches for your area. See page 57–59.

Free-standing Coat Storage

If wall fixing isn't an option, these are the solution. Free-standing units can also be placed against the wall, or back to back as an island. See page 61.

Mobile Coat Storage

Cloakroom on wheels: roll out storage with a place for everything. See pages 61–63.

Welly Storage

Clean and tidy storage for muddy boots. See page 63.

Wall-mounted Storage Shelf (A304) with Deep Totes (F890)

Extra clothing, PE kit, or bike helmets stow neatly in Deep Totes.

Wall Cubbies 8 (A314)

High Bench (A308)

Easy to clean

Water or dirt falls through plastic grates in benches. Slide a broom or mop underneath to clear it away.

Labels are simple for teachers to update, and there's room for a photo.

Clear pockets hold parent-teacher communication or artwork in a safe space.

Flip out the spacers to position the benches out from the wall, and keep the seat dry from dripping coats.

This Wall-mounted Storage Shelf adds extra space above the cubbies – exactly where teachers and parents find it most useful.

Promote independence with child-accessible cubbies and hooks. Personalise lockers with a name and photo.

Wall-mounted: Cubbies and Benches

ECERS 4: 7.2, 9: 7.3
ITERS 2: 7.1, 5.3, 5.1

Find a shelf, cubby, and bench combination to fit your setting.

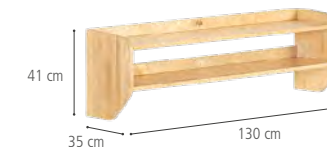

Add a shelf above the cubbies for parent- and teacher-accessible storage. Wall-mounted Storage Shelves hold Deep Totes or Baskets, keeping everything neat and organised – see options on page 90.

Benches offer both seating and footwear storage. Find more welly storage options on page 63.

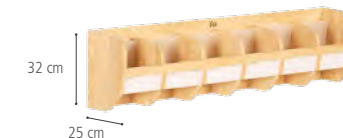

Add a Corner Basket to the shelf to create a home for Lost and Found treasures.

Coat Storage Unit 6 (A326) x2

Clear pockets hold parent-teacher communication or artwork in a safe space.

Labels are simple for teachers to update, and there's room for a photo too.

Easy to clean

Water or dirt falls through plastic grates at the bottom. Slide a broom or mop underneath to clear it away.

Gap behind bench allows coats to hang down, leaving space to sit comfortably.

Coat Storage Trolley (A300)

Castors enable easy movement and can be locked in place.

Children can put away shoes and coats independently in this easy-to-access Coat Storage Unit.

The Coat Storage Trolley fits into any available space – roll it out when you need it!

Free-standing Units

Use these all-in-one Coat Storage Units for storage that children can access easily. Create free-standing units by fitting two Stabiliser Feet to the back.

Place against a wall, back-to-back, or use Stabiliser Feet A297 (purchased separately). Coat hooks are 93 cm off the floor.

Mobile Coat Storage

Wheel it to where it's needed and store it where convenient. This Coat Storage Trolley is designed to hold 12 children's belongings (six per side). Used in combination with the Mobile Welly Storage, you'll have a complete cloakroom on wheels.

Coat pegs are 80 cm off the floor.

Coat Storage Trolley A300

For 12 children
One coat peg per child

The Coat Storage Trolley rolls right to the door, keeping the mess out of your room.

Footprints show children where to place their wellies.

Offset shelves save space and drain away water without dripping on other wellies.

Mobile Welly Storage (A302)

Neat and upright

Children know just where their wellies go – and no need to touch muddy soles.

Castors enable easy movement and can be locked in place.

Tight on space? The double-sided Mobile Welly Storage holds 48 pairs of children's wellies for a neatly compact solution.

Encourage independence. Matching their wellies to the footprints turns the chore of tidying away footwear into a puzzle that children can solve all on their own.

Welly Storage

ECERS 2: 7.1, 5.1 ITERS 2: 7.1, 5.1

Tidy and welcoming, this space-saving welly storage keeps your setting organised. Children can put away their footwear independently, and there's an individual space for everyone.

The double-sided Mobile Welly Storage can be rolled right to your entrance. Choose the wall-mounted version to bring order to cramped cloakrooms or narrow corridors.

Roomscapes Panels

ECERS 4: 5.3 ITERS 4: 7.3, 5.3

Bamboo Panels define spaces with warm, natural tones. **Clear Panels** enhance interaction and supervision. **Translucent and Rice Grass Panels** can form cosy spaces while still letting light through. **Display Board Panels** create a solid divider and provide display – note the cover options! Panel covers attach with Velcro. Combine panels with shelves to creatively divide your room. See page 93 for guidelines.

Roomscapes Wave & Curved Panels

ECERS 4: 5.3, 5.2
ITERS 4: 7.3, 5.3

Wave Panels provide an eye-catching way to change the height of your Roomscapes partition. Children naturally gravitate to curves, which are more welcoming than hard corners and right angles. Translucent and Rice Grass Panels create elegant niches while letting in plenty of light and maintaining easy supervision.

Roomscales Gates

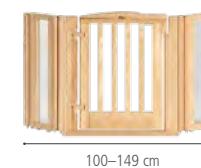

ECERS 5: 7.4, 5.1
ITERS 2: 7.3; 4: 5.3; 20: 5.1

Roomscales Gates allow you to enclose areas of your classroom or secure a hallway easily. Combine the Gates with Roomscales shelving or panels to create safe classroom spaces with controlled access. The double action latch opens easily in adult grasp but resists little fingers. Gate swings in or out, and pushes shut.

Adjustable Gates expand to the desired width, spanning a gap of any size from 100 to 172 cm.

Trays, Crates and Baskets

ECERS 4: 7.2, 17:7.2, 34: 7.1, 5.3
ITERS 2: 5.1, 4:5.3, 15: 7.1

Organise your room with our collection of Trays, Crates, and Baskets. There are two main sizes: **Large containers** fit the more spacious Tray Shelves, while **Medium containers** fit Tote Shelves and most of our other shelving. All containers are cleanable and durable.

Indestructible

Polyrattan baskets are practical, sturdy, and easy to clean. (Really, just send them through the dishwasher!)

Tote Shelf (F682)

Crates have a full-perimeter hand hold, making them easy for children to manoeuvre.

The natural look

Baskets bring a calm and elegant aesthetic to any space. Choose wooden Carry Crates to add a touch of nature.

A Shallow Tote fits two Half Totes or four Quarter Totes.

Containers of the same size stack.

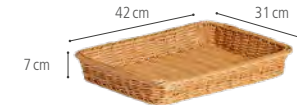

Believe it when you see it! Transparent containers offer a visual invitation to play and discovery.

Using Roomscapes

A quick guide to planning your Roomscapes order.

Overwhelmed? Ask about our free room layout service: +44 1580 883310

1. Measure your space

For a room divider, measure the span to the nearest centimetre. If planning an entire room, you will need a floor plan with a full set of dimensions. This should include doors, windows and built-in features.

2. Know your goals

- How old are your children?
- What about storage?
- How accessible should the area be?

3. Choose your items

See individual pages for dimensions of products.

Shelves double as boundaries and display when used in a divider. See page 67

Panels provide a simple divider in various heights. See page 78

Gates and Entries allow or restrict access to a space. See page 85

4. Put it all together

Roomscapes Shelves and Panels connect without tools, using sturdy posts.

Posts connect Roomscapes products. See page 88

Wall Adaptors attach posts to a wall. See page 88

Panel Stabilisers support a line of panels. See page 88

Fillers close the gap between two shelves. See page 88

Each shelf and panel has couplings on the sides where posts attach.

Posts slide onto the couplings. No tools needed!

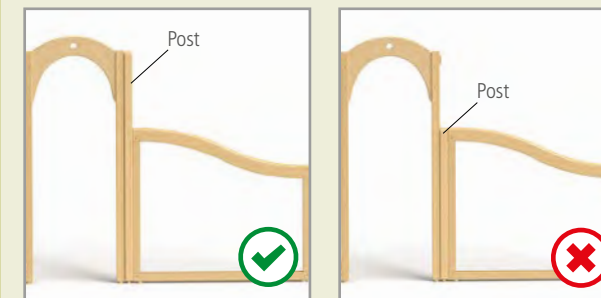

Shelves and panels can connect at any angle.

How to make safe and stable Roomscapes connections

Along with the ability to define your own space comes the responsibility to set up safe configurations. Because of the almost limitless options of the Roomscapes system, common sense is always needed to ensure that your setup is safe. Here are some essential guidelines to follow when connecting your Roomscapes items. Please follow them, as well as any warnings or cautions for specific items throughout this guide.

Posts

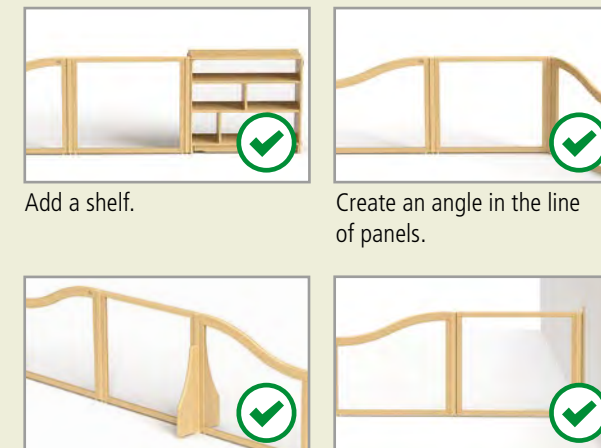

Always match post height to the highest piece it connects.

If you place panels on top of shelves or other panels to make a higher divider, the combined height should not exceed 122 cm.

Panels and Arches

Never connect more than two panels in a row without stabilising them in one of the following ways:

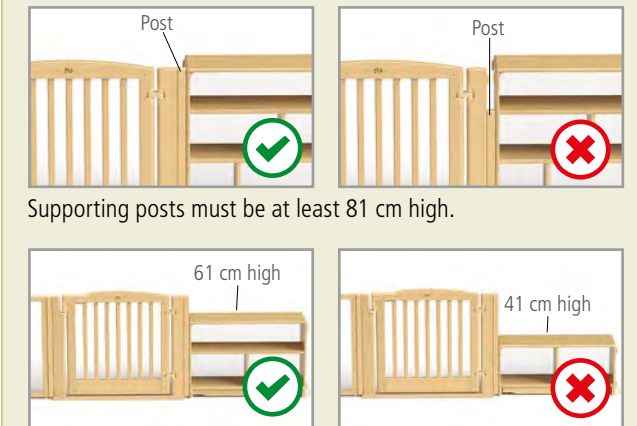

Use a Panel Stabiliser of the correct height.

Attach to a wall

- Panels must always be attached at both ends. (See illustrations above.)
- Never exceed 122 cm in height.
- Never end a straight line of panels with a single Corner Shelf.
- A 61 or 81 cm high Corner Shelf connected to a Teacher Arch or Roomscapes Entry must also connect to another panel, shelf, or Wall Adaptor.
- DO NOT support 102 or 122 cm high panels (the tallest) with 41 cm high shelves (the lowest).
- A 41 cm shelf with a panel stacked on top must be supported by other shelves or panels.
- Do not use two Corner Shelves to stabilise a straight line of panels.

Roomscapes Gates

Gates need extra support to be stable and safe.

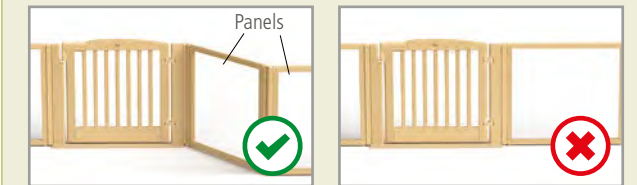

Supporting posts must be at least 81 cm high.

Attached shelves or panels must be at least 61 cm high.

A 61 or 81 cm high Corner Shelf connected to a Roomscapes Gate or Compact Gate must also connect to another panel, shelf, or Wall Adaptor.

Panels must connect at an angle to the Gate.*

63 cm long shelves must connect at an angle to the Gate.*

*Exception: the Roomscapes Gate and Compact Gate may connect in a straight line with a panel or 63 cm Shelf, but only if the hinge side is connected to a 94 cm Shelf (or longer), to a wall, or to angled panels.

Browser Box

ITERS 2:5.3 14: 7.1

The intriguing shape of the Browser Box invites little children to explore. This low, versatile storage bin with high visibility helps toddlers learn to put away their books and toys. Adjust the size of the bins by pushing the dividers along.

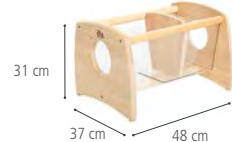

Smooth hardwood ends are peepholes for babies and handholds for carers.

The space-saving Small Browser Box offers the same play value with a smaller footprint.

Library Panel for Roomscares

ECERS 15: 5.3, 5.1 ITERS 4: 7.2, 7.1

The space-saving Library Panel does double-duty as divider and book display. Mounted directly on the wall in the classroom, office or reception, it can be accessed easily by children, staff or visitors. Connect it with other Roomscares items to create a customised reading space suited to your needs.

Nursery Sofa

ECERS 2: 7.2, 5.4 ITERS 2: 7.1, 5.3

Safe, durable and stylishly comfortable, this snuggler sofa is a welcome addition to any childcare setting. It's an inviting retreat for co-regulation, and a secure spot where staff can connect with key children. Our sofa provides a warm, homelike space for feeding a baby, reading a story, or just having a cosy chat.

With all its comfort, it's practical too! The cushions detach for cleaning, and soapy water gets rid of pencil, ink, and even permanent marker from the upholstery. Two staff can move this sturdy sofa to wherever it's needed next.

Coracle and Rest Mat

ECERS 2: 7.1 ITERS 8: 7.1, 5.1; 2: 7.1, 5.1, 5.3

The Dream Coracle is designed with both carers and children in mind. Its low edge allows children to climb in and out on their own, while the higher edge offers a reassuring sense of security. Because carers can interact at the child's level without bending or lifting, it reduces strain and supports more meaningful engagement. Weighing under 6 kg, Coracles are easy to move, and stack when not in use.

Rest Mats are comfortable for children and convenient for teachers. Lightweight yet durable, they are simple to clean, and the brown and green colouring makes it easy to remember which side belongs on the floor.

Sheets and blankets are machine washable.

Me-do-it Chairs

ITERS 2: 7.2, 5.3

The Me-do-it Chair is perfectly sized for the littlest children to adopt as their own. Its shape makes it easy to get in and out of, while the lightweight design lets little ones carry or push it independently. Built to support the knee-first-then-turn ritual of beginner sitters, the chair comes in two sizes.

Baby Shelf

ITERS 2: 5.3

Designed especially for babies learning to walk, the Baby Shelf's solid wood construction provides stability for cruising children and sturdy seating for their carers. Mirrors and peepholes in the end panels invite play and discovery. Placed on its side, the Baby Shelf becomes a boat any child is delighted to play in.

Baby Shelf **F611**

Carpeted top surface is soft on baby's hands.

Easy grip lip surrounds the top, giving a handhold for babies and preventing toys from rolling off.

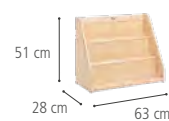

End mirrors with holes are for peeking through.

Toddler Book Display

ITERS 14: 7.1, 5.2

It's never too early to instil a love of books in children. With its clear front panels and low design, the Toddler Book Display is perfect for your littlest readers. Join two shelves back-to-back for a sturdy literacy island. It's quick and easy with the built-in connectors on the back of each unit. No tools needed.

Solid Leg size mark: On a Solid Leg, the size mark can be found at the top of the leg where it attaches to the table.

Seating and Table Height Guidelines

Determine the best seating for your setting according to our recommendations below.

First, look for the age of children you provide for on the chart, then select the corresponding seating option most appropriate for this age-group. Keep in mind that age is only a general guideline; children can vary significantly in size even within the same age range. Be sure to consider your unique mix of children, as well as the activities the seating will support.

Woodcrest Chairs and Stacking Stools have a size mark under the seat. Match this number to the corresponding number on the table legs to get the correct seat-to-table height.

Set the correct table height. Match the number on the chair bottom to the corresponding number stamped on the table leg. Find height recommendations per age on page 141.

Save floor space by moving tables to the side of the room and stacking them in a fan pattern. For more permanent and compact storage, legs unscrew and clip into the leg holder.

To support developing motor control, slightly tilt a table by shortening the adjustable legs on one side.

MultiTables

This versatile system of tables is solid and dependable to support the important work of playing and learning. With a wide range of shapes and sizes it's easy to customise your tables to fit different ages, groups, and activities.

MultiTables are lightweight and modular so you can move, stack, and store them easily. Adjustable legs allow staff to change the table height quickly – no tools needed. Or choose the solid leg option for a sturdy table with a natural look.

Seating

Looking at seating options for your classroom? Sitting surfaces need to be appropriate for the age of the child and the activities they support. We offer a wide range of seating options for both children and teachers. Choose the most comfortable, functional seating for your classroom or nursery setting.

Stacking Stools

Children need every opportunity to move and build core strength; Stacking Stools encourage this movement and allow for more dynamic posture. Stacking Stools are versatile for seating and play. Available in six sizes. See page 155.

Woodcrest Chairs

Robust, beautiful seating for preschool children to adults. Available in seven sizes. Don't miss the Teacher Low Chair – it's the one with a handhold! See page 153.

Childshape Chairs

Solid chairs with armrests, designed for twos and threes who need extra support. Available in two sizes. See page 157.

Mealtime Chairs

Babies and toddlers need supportive, cleanable seating as they master their eating skills. Available in two sizes, with optional feeding tray. See page 123.

Me-do-it Chairs

Low and wide-based, Me-do-its are just right for toddlers. Available in two sizes. See page 121.

More seating

See Nursery Sofa on page 113, Child's Sofa and Armchair on page 207, and Outlast Benches and Seats on pages 31–33.

43 cm Woodcrest Chair (J716)

Shaped for comfort
The backrest “circle” eliminates pressure on the lower spine. Edges and corners are rounded.

Stable seating
The wide-based design makes the chair stable without having the legs protrude.

Children sit comfortably on this contoured chair. The waterfall front encourages circulation.

Rubber tips are non-marking, non-slip, and help keep the noise down.

Light enough for children to carry.

Stackable: Five chairs high.

Woodcrest Chairs

ECERS 2: 7.1, 5.2, 5.1 ITERS 2: 7.4, 7.2

The lightweight Woodcrest Chairs are made of formed beech. The graceful one-piece design is easy to clean, with no joints to work loose. Woodcrest Chairs are ultra-stable and sturdy. They stack up to five chairs high.

Teacher Low Chair

Our Teacher Low Chair is designed for the carer. Providing enough seat depth, width and back support for the average adult, the “TLC” comfortably seats teachers low enough to interact with young children at their level.

Teacher Low Chair J432
Seat 39 cm wide x 30 cm deep, seat height 30 cm
Max. weight limit 170 kg

The handhold makes the TLC easy to move from one location to another.

17 cm Stacking Stool (J122)
31 cm Stacking Stool (J125)

Lightweight sturdy build for decades of use.

Large contoured seat, comfortable for both children and adults.

Easy to clean.
Inset joinery ensures that there are no hidden crevices to trap mess.

Rubber tips are non-marking, non-slip and help keep the noise down.

Ergonomic design allows freedom of movement and comfortable seating.

Story time! Teachers can get right down on the child's level.

All six sizes can stack together. Rubber bumps on underside protect the tops from scuffs and scratches.

Stacking Stools

ECERS 2: 7.1, 5.2, 5.1 ITERS 2: 7.4, 7.2, 7.1

Stacking Stools provide durable, versatile seating for children. Stools allow for more dynamic posture; because of the flat seat, children can find the seating position that is most comfortable for them. Stacking Stools accommodate the size range of an age group better than chairs, and stack easily for compact storage. Most appropriate for ages three and up.

Stacking Stools accommodate individual seating preferences and provide opportunities for children to build core strength through movement.

25 cm Childshape Chair (J410)

Armrests provide extra support.

Safe and easy to clean, with rounded edges and corners.

The Mealtime Chair's low and sturdy construction allows a toddler to climb right in.

Childshape Chairs have no post or seatbelt, to suit children ready for more independence.

Mealtime & Childshape Chairs

ECERS 2: 7.1, 5.3, 5.2, 5.1

Large Double Table (A694)

The built-in ledge creates a convenient play surface right at the child's fingertips.

The bridge between pans offers even more play surface.

To move table, simply lift one end and roll. It's immediately stationary when set down.

The large drain allows almost any material through. It's easy to clean, and the tethered plug won't get lost!

This mobile Storage Shelf connects to Roomscapes and provides organised storage. There are compartments for sorting and a slot for pan lids.

Large Tables provide space for collaborative play. Watch those young scientists investigate as they mix, count and measure.

Large Tables for Sand & Water Play

ECERS 2: 7.2, 23:7.1, 5.1
ITERS 21: 7.2, 7.1, 5.3

Sand and water play is wet or dry, always messy and most importantly, fun! Use the Large Double Table to separate materials and encourage schematic play. The Large Single Table is perfect for larger volumes of water or other materials.

Use the purpose-built Storage Shelf for wet or sandy accessories and loose parts. Water drains through the grates and onto the plastic tray below. Just pull it out for a quick clean.

All items come fully assembled.
For ages 15 months–6 years.

Small Tables for Sand & Water Play

ECERS 2: 7.2, 23:7. 5.1
ITERS 21: 7.2, 7.1, 5.3

This Small Table is the compact, space-efficient option to bring sand and water play into your setting when floor space is limited. It's easy to move, drain and clean.

Sand and Water Tables adjust to three heights: low for 15–24 months, medium for 2–3 years, and high for 3–6 years.

The Storage Shelf's angled, child-height compartments invite children to sort and select toys; even babies can help themselves. The designated slot at the back holds two Sand and Water Table lids.

For ages 15 months–6 years. All items come fully assembled.

Activity Trays contain small world and sensory play for all ages. Pop on the lid, and it's a **Tray-table!**

Drip tray catches water or mess draining through grates, and removes for cleaning.

Lids slot neatly into designated space, upright and safely out of the way.

Mobile: Flip up the hidden wheels, roll...

...and flip down for a perfectly stationary unit.

Low Sensory Table (A691)

The Low Sensory Table comes with a lid.

10 cm deep pan holds anything from balls to natural materials.

Sturdy build lets babies pull up safely on the smooth rim.

Bring it down to baby level. The Low Sensory Table lets them discover new textures and explore sensory materials.

Sort, post and transport – toddlers can access the angled compartments on the Storage Shelf, and even little crawlers can rummage through the bottom bins.

Low Sensory Table

ITERS 15: 7.2, 7.1, 5.1

Here's a place for the smallest ones to explore – just the right height for your little crawlers. This Low Sensory Table encourages communication and curiosity as well as both fine and gross motor skills. Lift pan out easily for emptying and cleaning.

Stow accessories and loose parts in the child-accessible Storage Shelf, where even babies can reach them.

All items come fully assembled.
For ages 9–15 months.

Back view

Paper slots are slanted so they can hold a wide range of sizes, up to A2. Note the wider, deeper slot for paper rolls or cardboard.

Sturdy locking castors ensure easy transport.

Five Half Totes provide child-sized storage for craft items.

Help Yourself Trolley

ECERS 20:7.2, 7.1, 5.1 ITERS 17:7.2, 7.1

If you share classroom space with other programmes or simply don't have room for an art centre, consider this creative station on wheels. It can travel wherever it's needed, carrying everything young artists will use. With generous storage space and Totes for every possible craft material, this trolley makes up for the three or four pieces of furniture you wish you had room for.

Low Art Island, 71 cm wide (H500)

Wooden handholds are a convenient place for hanging aprons, and can assist children who need extra support.

Adjustable shelf is convenient for paper storage or optional totes. Totes also fit between the A-frame whiteboards.

Flip the whiteboard over and it becomes a chalkboard. Children can attach their own paper on either side using the extra-strong magnets.

Paint trays catch the drips and remove easily for clean-up.

Up to roll. Down to stay.
Just flip up the wheels, roll it where you want, then flip them down for a perfectly stationary unit.

With quick-release latches, Art Islands instantly convert to Floor easels. Now the painting surface is accessible to toddlers!

Art Islands and Floor Easels

ECERS 2:7.2, 20:5.1

Block Family

Blocks are teachers, not just toys. Block play offers a vast range of experiences, enriching every area of the curriculum and supporting child development.

For over 100 years educators have been promoting the use of blocks in early childhood classrooms as a powerful learning tool. Because modular blocks are so versatile, they offer endless opportunities for a child's imagination to soar while discovering basic math and science principles, practicing problem-solving techniques and social skills, and building a solid foundation for future education.

Providing enough blocks, space and time is critical to the quality of children’s block play. These Unit Block Sets contain large numbers of the most useful and popular shapes.

For storage, low open shelves allow the blocks to be sorted by size and shape. Generous space helps children to classify and organise the blocks during cleanup. More compact, space-saver storage options are available as well.

Each block set is shown with recommended storage options.

Home is where the heart is. This area holds a timeless charm that will enchant little home-bodies, and its significance cannot be overstated. It need not be a corner – create a shared space anywhere in your room where children can gather, share thoughts, express feelings, and belong.

Choose from our preconfigured sets for an easy way to start. These modular units allow for arranging, changing, and adding to your collection over time.

Add stacking stools and a play table to your home corner to make a fashionable kitchen-cum-diner. Products shown are Complete home corner C555, Stacking stools J123, and Round play table C231.

Complete Home Corner

C555

For ages 3–5.

Everything including the kitchen sink! Make your home corner the family hub, with a kitchen living room style layout.

Enjoy puppet theatre entertainment and popcorn while the washing gets done on the side.

Country Kitchen

C535

For ages 3–5.

The heart of the home is where everyone can pitch in and help out. Little ones search the cupboards for a favourite mug, load the washing machine, or defrost the veg while chatting and laughing about the day. It's the perfect place to share exciting announcements and spill secrets.

Sussex Kitchen
C537

For ages 2–5.
This popular combination of home corner favourites provides many role play opportunities. A shop on High Street one day becomes a science laboratory the next, but there’s always lots of work getting done. For older children, purchase two additional Drawers to raise Sink and Cooker height.

Kitchenette
C525

For ages 2–5.
Cook a five star meal in a mini-kitchen. The two Drawer units in this compact kitchen make it adaptable for a wide range of children.

Toddler Collection
C530

For ages 1–3.
Create a space your toddlers love exploring, with turning dials, shiny mirrors and posting holes. Pinch-free and sturdy, this child-friendly area is a worry-free world of discovery.

Starter Home Corner

Children's play is very physical, involving lots of action and testing of their abilities. It's thrilling for a child to realise "Yes, I can do this!"

The PlayFrame allows staff to gradually raise the level of challenge as children's skills and confidence grow.

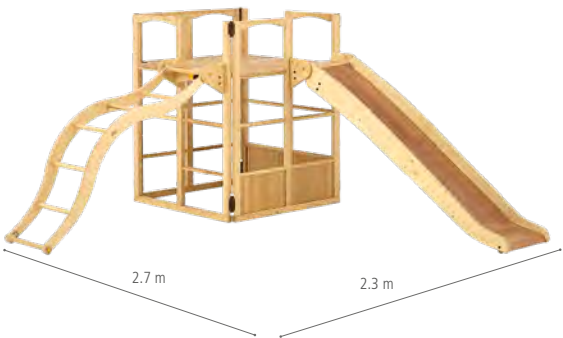

PlayFrame

ECERS 8: 7.1, 7.2, 5.2; 24: 7.3;

Children learn best through movement and play, which naturally build social skills like negotiating, planning together, and sharing resources. The PlayFrame offers endless opportunities for active and imaginative play, giving preschoolers a fun, developmentally appropriate space to strengthen their gross motor skills. Unlike a fixed structure, its versatility keeps play fresh and engaging.

Safe for the environment

Our environmental commitment is as solid as our furniture. From product design to manufacturing and delivering your order, we're always on the lookout for the greenest way.

Stewardship of resources

Our furniture is made with wood from well-managed, FSC® certified forests and other controlled sources. The Forest Stewardship Council® (FSC) is an independent non-profit organisation promoting environmentally appropriate and socially beneficial management of the world's forests.

Clean air outdoors

We take measures to safeguard the environment for the benefit of present and future generations. We are certified to ISO 14001, a standard that helps organisations continually improve environmental performance through more efficient use of resources, reduction of waste, and minimisation of other environmental impacts.

Clean air indoors

To provide the healthiest environment for children, Community Playthings works with Eurofins to

evaluate our products against the most stringent indoor air quality standards in Europe. Our furniture achieved Indoor Air Comfort Gold certification, which incorporates legal requirements and voluntary standards for indoor emissions.

Sustainable

With all our products designed and built in-house, Community Playthings offers an industry-leading sustainability profile. We are full members of the Furniture Industry Sustainability Programme (FISP), which promotes best practises to drive social, economic and environmental change.

Local care and craftsmanship

All products are designed and made in our workshops in Kent and East Sussex. We use local suppliers where possible. Goods are shipped directly from our warehouse in Kent, reducing our carbon footprint.

Longer lifespan

The ultimate environmental standard? The test of time. Quality products that last for decades don't clog landfills or require a lot of resources to fix or replace. Our durably-made furniture and play equipment will be around for generations to come.

Community Playthings received The King's Award for Enterprise in Sustainable Development: a recognition of our long-standing commitment to creating environmentally responsible products.

Safe for children

It is essential that the earliest years of a child's life are spent in a safe, healthy environment. At Community Playthings, we are fully committed to eliminating any potential hazards from our products and to exceeding standards in our efforts to keep children healthy.

Indoor air quality

Children are particularly vulnerable to harmful chemicals in the air. Many of these are volatile organic compounds (VOCs) from paint, varnish, air fresheners, building

products, and cleaning agents. These chemicals have been linked to serious long-term health consequences including asthma and allergies. Since our products are PVC-free and use low-emitting finishes, they have achieved Indoor Air Comfort Gold certification, which incorporates legal requirements and voluntary standards for indoor emissions.

Healthy and safe materials

Science has discovered chemicals in our everyday environment that may compromise health. Most are created by industrial processes and are used in plastic and other common products. Some, such as Bisphenol A (BPA), disrupt the endocrine system. Tiny amounts can have outsized effects by mimicking hormones.¹ Phthalate plasticisers in polyvinyl chloride (PVC) are linked to modern ills like obesity, diabetes, or early puberty and are particularly ubiquitous in the modern manufactured environment. (Production of PVC itself is hard on the environment.) We are glad to reassure you our products are polycarbonate- and PVC-free. That means no BPA and no phthalates. Our acetylated outdoor products are free of metal compounds, pesticides, and other chemicals commonly used to treat timber. The only by-product of acetylation is acetic acid (vinegar). Our cot mattresses are made of coir (coconut husk fibre) and wool, and are free of all chemical flame retardants, while still passing flammability standards. We will allow no known hazards in our products, but only greener, healthier materials for your children.

Product maintenance

Community Playthings products are worth caring for. You already know that our products last for decades. We recommend a regular maintenance programme for keeping Community Playthings products strong and beautiful. Refer to your product guide for more maintenance suggestions. Replacement parts are available through customer service, often at no cost.

We've given you a customer service representative who understands your needs and can help you with questions about our products.

Indoor products

Unfinished wood

Use a mild detergent and water. Scrub with a stiff brush, working quickly to avoid soaking the wood. Wipe off excess water and allow to dry thoroughly.

Finished wood

Wipe with a damp cloth and mild detergent. Do not use excessive water. To refinish, lightly sand the entire surface. Any remaining finish need not be removed. Then, following the manufacturer's instructions, apply one or two coats of child-safe varnish, using a brand you trust.

Carpet cleaning

Our carpets are made of stain-resistant nylon fibre. Vacuum carpets frequently. To wash, lift a corner of the carpet to remove, shampoo with carpet cleaner and allow to dry before replacing it. For stubborn stains, refer to your product guide.

Disinfecting

Use any standard disinfectant such as a bleach-based solution or virucidal disinfectant. All products should be rinsed with plain water and dried after any cleaning agent is used.

Terms

To improve our products, we reserve the right to alter design or materials without prior notice. Although durability and safety are prime concerns in the design of our items, Community Playthings products are used by young children of immature judgement and are not intended for unsupervised use. The buyer assumes all risk of injury or applicability to a particular use.

Please examine your goods on arrival. In the event of damage or loss, telephone Community Playthings the same day.

A product guide comes with each Community Playthings product. This important document makes recommendations for use and details specific limitations which must be observed. Please look for it when your boxes arrive. You can download product guides from our website.

All goods offered subject to availability.

Outdoor products

Community Playthings Outlast items are resistant to wood-decaying fungi and moulds. Weathering and mildew growth have no negative effect on the structural integrity, but the wood may eventually fade and turn grey from exposure to the sun's UV rays. If you prefer the original look, follow the instructions below to re-stain your items. Contact customer service to request a bottle of Outlast refinishing stain.

1. Scrub item with soapy water to remove dirt or mildew. Allow to dry completely before applying stain.
2. Apply stain liberally to wooden parts. (If you get some on the plastic parts, don't worry, just be sure to wipe it off with a damp cloth before the stain dries.)
3. Allow stain to dry for a few minutes before removing extra drips with a dry paper towel. Stain will be dry to the touch in a couple of hours, but it's best to let the stain dry overnight before continuing to use your item.

Free room layout service

Choosing furniture and budgeting for a new space can be overwhelming. Our free room layout service takes some of the stress off you and your staff. Send us your floor plans and budget, and our designers will send you a custom layout that fits your unique requirements. To help visualise your furnished space, we'll send you a 3D rendering and a 2D layout with furniture and activity areas labelled.

1. Tell us about your project

We will send you a questionnaire followed by a phone call to discuss your plans, requirements and deadlines.

2. We do the work

With the information you send we will create a 2D and 3D design of your space, including a cost estimate. All free of charge and within two weeks.

3. Delivery

All furniture will deliver fully assembled. Better yet, the boxes will be marked to correspond with your plan. Ask your account manager regarding our set up and packaging removal service.
