## Collection **Nexa**

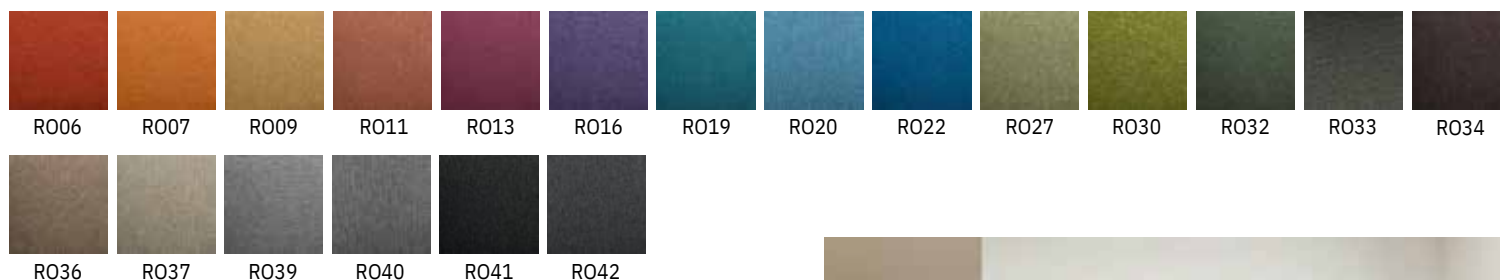

# Collection Nexa

Nexa is a modern furniture collection designed with flexible space arrangement in mind. It combines minimalist form with functionality, offering solutions that will work in any space. Its modular design allows for flexible combinations of elements—from compact seating units, through expansive arrangements with backrests, to complementary tables. The collection allows for the creation of both cosy relaxation zones and larger configurations for shared spaces—offices, waiting rooms, relaxation areas, lobbies, and educational spaces. The Nexa system allows for the creation of both intimate relaxation zones and larger configurations for shared spaces—offices, waiting rooms, relaxation areas, lobbies, and educational spaces. Each element of the collection is available in several subdued colors. The seats and backrests are upholstered in two types of fabric:

- **Roccia (RO)** – Quick-drying polyester fabric with an abrasion resistance of 70,000 Martindale cycles. Flame retardant/flammability certified: BS EN 1021-1:2006, BS EN 1021-2:2006, BS 7176 Medium Hazard and OEKO-TEX® STANDARD 100 (Class II).

- **Bond (BD)** – Durable polyester fabric with an abrasion resistance of 150,000 Martindale cycles. Flame retardant/flammability certified: BS EN 1021-1, BS EN 1021-2, BS 7176 Medium Hazard and OEKO-TEX® STANDARD 100 (Class II).
